03 35 33 STAMPED CONCRETE FINISHING (CONT'D)

ADA Solutions Paver Tiles

6 Standard Colors Available - Call for Pricing

ADA offers a complete product line featuring both detectable warning surface and wayfinding solutions designed to improve the safety for both visually impaired and fully sighted pedestrians. Provides wear resistance properties far superior to that achieved with concrete based materials of any type. Paver tiles will not crack, they conform to underlying substrates and are impervious to water absorption. Panels come in sizes starting at 24" x 24" and larger.

Press-In-Place
24" x 48"

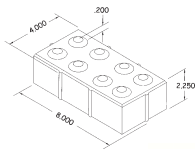

The Paver Unit is pressed flush into wet concrete, tamped in place, and any residual debris is removed from the paver surface.

Retrofit
24" x 24"

Whitacre-Greer ADA Red Rustic 4in x 8in Paver - ODOT Approved

Item#: Price:
4490150 1.65
